LinkedIn : <u>Vincent Debar-Monclair</u>

Enthusiastic and motivated, I am a full-stack developer eager to learn and collaborate with dynamic teams. After several years of experience in sport industry, I transitioned into web development, where I can combine problem-solving, logic, and creativity. My past experience has equipped me with adaptability, teamwork, and resilience—key assets in a constantly evolving industry. My curiosity and adaptability allow me to thrive in fast-changing environments, and I am looking for a team that will support my growth while benefiting from the unique perspective I bring from my previous career.

Education

Professional certification in web and mobile web development
O'Clock, Paris
10/2023 - 04/2024

Bachelor in Sports Sciences
University of Paris 5
09/2004 - 06/2005

- **Front-End development :**
HTML5, CSS3, javaScript, typescript, react.js, responsive web design, web accessibility.

- **Back-End development :**
Node.js, express.js, restful API, graphQL, postgreSQL, mongoDB.

- **Security, performance & SEO :**
Web security, SEO optimization.

- **Tools & devOps :**
Git, gitHub, docker, VS Code, figma.

- **Agile & software development :**
Agile & scrum methodologies, Object-Oriented Programming.

- **Testing & best practices :**
Jest (integration testing), web performance optimization (lazy loading, code splitting).

Work Experience

Full-Stack web developer
O'Clock | Paris | 03/2024 - 04/2024

Final year project – Vinyl search app

- Led the project as product owner in a 5-person Agile team, defining the product vision and ensuring alignment with user needs.
- Developed and maintained a full-stack web application for vinyl record search, integrating the Discogs API.
- Designed and implemented both front-end (React, TypeScript, Bootstrap) and back-end (Node.js, Express, PostgreSQL) functionalities.
- Built a responsive UI optimized for different screen sizes, ensuring a seamless user experience.
- Established a development workflow by defining coding standards, best practices, and Git branching strategies for smooth collaboration.
- Configured and optimized database queries for faster performance and better scalability.
- Conducted unit and integration testing with Jest, identifying and resolving bugs before deployment.
- Facilitated group sessions for requirement clarification, design discussions, and code reviews, ensuring a well-structured development process.
- Managed source control using Git & GitHub, enabling efficient version control and collaboration.
- Presented weekly progress updates and delivered a final demo showcasing project outcomes to mentors and stakeholders.

Soft skills

- Analytical thinking & attention to detail
- Teamwork & communication
- Adaptability & continuous learning
- Resilience & stress management
- Time management & autonomy
- Problem-Solving abilities

Languages

- French : native language
- English : level B

Hobbies & Interest

Boxing : A sport that requires discipline, strategy, and resilience.

Macro Photography : A passion that sharpens my attention to detail.

Watches : I love understanding intricate watch mechanisms.

Ecology & Nature : Passionate about sustainability and efficiency.

Work Experience

Professional immersion in watchmaking
Moinet | Saintes | 06/2023

- Discovered the watchmaking industry and its manufacturing techniques.
- Observed and learned about design and assembly processes.

Bank Advisor
Société Générale | Pons | 09/2022 - 05/2023

- Advised and sold banking products: identified client needs and proposed suitable solutions (accounts, savings and loans, insurance).
- Managed daily banking operations: processed transactions, transfers, and payment methods.
- Engaged in prospecting and commercial development: participated in customer retention and acquisition initiatives.

Personal Trainer
Freelance | Dubai-UAE | 01/2014 - 09/2021

- Design and implementation of personalized training programs.
- Regularly monitor customer progress and adjust programs accordingly.
- Marketing development, communication, customer prospecting, service sales, administrative management and accounting.

Recommandations

Ghislain Girardeau – *Instructor & Mentor, O'Clock school*
LinkedIn : *Ghislain Girardeau*
"Vincent successfully completed a Full-Stack JavaScript training, demonstrating strong commitment, curiosity, and a great capacity for learning. He mastered front-end development, back-end with Node.js/Express, and database management. Beyond his technical skills, he is a collaborative and motivated individual with excellent communication. I highly recommend him to any organization looking for a passionate developer."

Dylan Magalhaes – *Full-Stack Developer, Former Teammate*
LinkedIn : *Dylan Magalhaes*
"I had the chance to work with Vincent on our final project, where he showed strong commitment, attention to detail, and a drive for high-quality work. His excellent communication skills kept the team aligned and productive. Open-minded and eager to learn, he is also a great team player. I highly recommend him to any organization."
